

Amit Kumar

Senior Software Engineer

React Native Developer with more than 5 years of experience building cross-platform mobile apps

New Delhi | amitaquarius13@gmail.com | +91 8373931391 | [Linkedin](#) | [Website](#) | [Github](#)

SUMMARY

Senior React Native Engineer with 5+ years building scalable consumer mobile applications used by 10K+ users across Android, iOS, and Progressive Web Apps. Specialized in React Native New Architecture migration, performance optimization, mobile security/authentication, and CI/CD automation. Delivered production features for global platforms including sports betting/iGaming and OTT meditation apps, with a track record of 12+ SDK integrations and 2 published open-source packages.

CORE REACT NATIVE EXPERTISE

- **React Native Development:** Cross-platform mobile application development for Android, iOS, and PWA using React Native (including the New Architecture). Expertise in Native Modules & Bridging, reusable component architecture, React Navigation, Redux, MMKV, offline downloads, voice-to-text, AI chatbot integration, profile picture upload and cross-platform feature implementation.
- **Performance:** Startup time optimization, re-render reduction, memory profiling, APK/App size optimization, code splitting, FlatList optimization, image optimization, API debouncing, and overall application performance tuning.
- **Security & Authentication:** HMAC-secured API communication, secure storage, Google reCAPTCHA (v2 & v3), OTP auto-read, biometric authentication, Passkeys, Google, Apple & Facebook Sign-In, and dependency security with NPM vulnerability auditing and remediation.
- **CI/CD & Release:** Fastlane automation, Firebase App Distribution, automated build and deployment pipelines, OTA updates using Stallion, Play Console & App Store Connect release management, release automation, crash monitoring with Sentry, and production monitoring.
- **Integrations:** Firebase, WebSockets, Push Notifications, Deep Linking, AppsFlyer, Singular, CleverTap, Aeropay SDK, Zoom SDK, Apple HealthKit, Add-to-Calendar, App Rating, audio/video streaming, Sentry, user invitation flows using AppsFlyer, and third-party SDK integration

TECHNICAL SKILLS / TOOLS

- **Languages:** JavaScript (ES6+)
- **Tools:** Git, Jira, Postman, SonarQube
- **Framework:** React Native, React, PWA
- **State Management:** Redux, Thunk, Context API
- **Security:** HMAC, Google reCAPTCHA, Secure Storage
- **Debugging & Monitoring:** Crashlytics, Sentry, Reactotron
- **CI/CD:** Fastlane, Firebase Distribution, Play Console, App Store Connect
- **Authentication:** Google Sign-In, Apple Sign-In, Facebook Sign-In, Passkey, OTP Auto Read

PROFESSIONAL EXPERIENCE

TO THE NEW – Senior Software Engineer

Sep 2021 - Present

Noida, Uttar Pradesh, India | React Native (Android, iOS, PWA)

- Designed and developed 4+ cross-platform React Native applications for Android, iOS, and PWA, serving 10K+ active users. Built a reusable component library adopted across 3+ projects, cutting new-feature development time by 70%.
- Led migration of legacy React Native applications to the New Architecture (TurboModules & CodeGen), improving runtime performance and maintainability.
- Reduced app cold-start time by 50% and cut app size by up to 44MB (Android) / 29MB (iOS) through re-render reduction, memory profiling, and code splitting.
- Integrated Native Modules and platform-specific APIs for Android and iOS to support performance-critical features.
- Implemented secure authentication using Passkeys, Biometrics, OTP Auto-Read, Google reCAPTCHA, and HMAC-secured API communication.
- Integrated third-party SDKs including Firebase, AppsFlyer, Singular, CleverTap, Aeropay, Zoom, Apple HealthKit, Push Notifications, Deep Linking, and WebSockets.
- Automated Android/iOS release pipelines with Fastlane and Firebase App Distribution, cutting release time down to just 8 minutes.
- Monitored production health via Crashlytics and Sentry, maintaining a consistently high crash-free session rate.
- Built an automated NPM dependency vulnerability audit script, strengthening application security posture.
- Collaborated with product managers, designers, backend engineers, and QA teams to deliver high-quality features in Agile sprints.

PROJECTS

Project: Astro-Go — July 2026 – Present

Description: A streaming platform for Astro customers, offering 50,000+ shows, live sports, dramas, and entertainment content.

- Built responsive and reusable UI components.
- Integrated REST APIs and third-party SDKs.
- Implemented navigation, authentication, and deep linking.
- Optimized application performance and user experience.
- Debugged and resolved production issues and crashes.
- Worked on app releases and deployment for Android and iOS.
- Collaborated with cross-functional teams to deliver features on time.

Project: Bally's Rewards (PWA) — July 2024 – July 2026

Description: Bally's Interactive is a global entertainment platform offering sports betting, iGaming, free-to-play, and daily fantasy sports.

- Designed responsive, high-performance UIs for Android, iOS, and PWA.
- Resolved production issues using Firebase Crashlytics.
- Integrated third-party SDKs, Native Modules, and platform APIs.
- Automated Fastlane build and deployment pipelines for Dev, QA, Pre-Prod, and Production.
- Automated environment-specific code signing and credential management for CI/CD.
- Reduced Android APK size from **114 MB to 70 MB** and iOS app size from **55 MB to 26 MB**.
- Improved app startup time, rendering performance, and overall user experience.

- Implemented HMAC-based secure API communication and secure credential management.
- Built an automated NPM dependency vulnerability auditing tool.
- Developed a high-performance Progressive Web App (PWA).
- Delivered Passkey Authentication, Voice-to-Text, and Aeropay payment integration.

Achievement:

- **Star Performer Award (FY'26)** – Recognized as a **Star Performer** for consistently delivering high-impact projects, demonstrating technical excellence, and contributing to team success.
- **Quarterly Team Award – Customer Delight (Q2 FY'25)** – Recognized for delivering exceptional customer experiences through strong collaboration and execution.
- **Aeropay Feature Delivery (FY'24)** – Successfully delivered the Aeropay payment integration within a challenging timeline while maintaining high quality.

Project: Sooka — Apr 2024 - July 2024

Description: Sooka is a freemium streaming platform for Malaysian audiences, offering live sports such as the Premier League and Liga Malaysia, local entertainment, and exclusive Sooka Originals.

- Created POC for Google reCAPTCHA v1 & v2.
- Integrated Sooka logo video on the splash screen.
- Implemented dynamic auth-token refresh for DRM-protected video playback

Project: Idanim - OTT Meditation App — Mar 2022 - Apr 2024

Description: A mindfulness and meditation platform designed to bring calm, balance, and focus into users' daily lives.

Description: A mindfulness and meditation platform designed to bring calm, balance, and focus into users' daily lives.

- Handled UI development and API/SDK integrations for the Idanim platform.
- Led a team to ensure smooth, on-time feature delivery across multiple release cycles.
- Uploaded and launched the app on both Android and iOS stores, managing the full release process end-to-end.
- Maintained Play Store Console and App Store Connect dashboards, overseeing app health and release status.
- Analyzed user feedback and performance data to identify and prioritize product enhancements, contributing to improved app stability and user experience.
- Contributed to overall performance optimization, improving responsiveness and user experience.
- Debugged and resolved production app issues using Sentry and Firebase Crashlytics.
- Implemented security best practices for handling sensitive user data and ensuring data privacy compliance.
- Integrated Google, Facebook, and Apple Sign-In, OTP auto-read, Apple Health, offline downloads, calendar events, Zoom live streaming, media player, app rating, deep linking, Singular SDK, local notifications, and CleverTap analytics.

Achievement:

- **Continuous Improvement Awards**
Recognized for consistently contributing to process improvements and optimizing workflows.
- **Idanim July Release Milestone Achievement**
Recognized for key contributions to the Kids Meditations milestones in the Idanim July release.
- **Quarterly Team Award - Customer Delight (Q2 - FY'23)**
Honored for delivering exceptional customer experiences through great teamwork and dedication.
